Jimma University

Jimma University in expansion

- Substantial expansion in last 5 years
 - Student numbers from 2000 to 10000
 - Number of new master programs
 - Investment in infrastructure
 - Quantity en quality of academic staff can not follow this expansion
 - Pioneer in CBE

Preparation IUC

Gilgel Gibe project

Identification of flemish partners wrt
health & environment
agronomy via IUC-Mekele

- Visit Ethiopia 17-29 August
- President-vice presidents
 - 60 academic staff members
 - Embassy and BTC
 - Ministry of education

Strong points of IUC

- JU is oriented towards community (CBE) and young and dynamic university
- To sustain growth and fulfill service towards society it is required that the academic expertise, both related to research and education, is developed further

Weak points of IUC

- In the past few links and own initiatives with flemish universities
- On the other hand, a substantial number of academic staff members of JU have followed ICP programs (e.g. Environmental Sanitation) and therefore have links with flemish academic staff that will support the IUC
